

EL PASO INTERNATIONAL AIRPORT

#1116

**INTERNATIONAL AIRPORT
EL PASO, TEXAS**

The conquistadores, traveling north on Camino Real in 1536 found the location of "EL PASO del Norte" (the Pass of the North) ideal as a base for searching the southwest. Modern day explorers, with fun and relaxation as their golden goal, find our city the perfect headquarters for today's pilgrimages of pleasure, be they a few hours or a few days. This view shows a modern jet plane with the Franklin Mountains in the background.
